 5. Your Letter no. Lr.no.CMWSSB /CNT/CON/DESAL/ICB/Gol/016/2018-19, dated 06.11.2019

Dear Sir,

We wish to bring to your kind notice that the Project Management Consultancy (PMC) assignment commenced our services on 20.01.2020 and we have successfully completed 12 months period for the subject project. As per our Contract Agreement vide our letter cited in reference no.3, dated 09.01.2020, the Special Conditions of Contract, Clause 6.2 (c) (Page no. 41 and 42), states that the contract price will be adjusted every 12th months (and, for the first time, with effect for the remuneration earned in the 13th calendar month after the date of the Contract) as per Consumer Price Index for Industrial Works (CPI-IW) Labour Bureau, Govt. of India for Local Currency and for Foreign Currency as per the Bureau of Labour Statistics US Department of Labour.

In this regard, we are submitting herewith the methodology (as per Contract) for calculation of price adjustments for your kind approval.

1. Adjustment of Remuneration

A) Local Currency

$$R_f = R_{f0} \times (I_f / I_{f0})$$

where:

R_f is the adjusted remuneration;

R_{f0} is the remuneration payable on the basis of the rates set forth in Appendix D for remuneration payable in local currency;

I_f is the relevant index salaries in the Client's country for the first month for which the adjustment is to have effect; and

I_{f0} is the official index for salaries in the Client's country for the month of the date of the contract

PMC Chennai Office Address:

13th Floor, Purva Primus, No 236, Okhiyampettai, Old Mahabalipuram Road, Thoraipakkam, Chennai, Tamil Nadu 600097

+91 044 66973300 | indiabd@smec.com | www.smec.com

PMC for 400 MLD SWRO Desalination Plant at Perur, Chennai

Consortium Partners

SMEC International Pty. Ltd. (ACN-065440619/FCRN-F01483)

NJS Engineers India Pvt Ltd, India (CIN - U74210PN2007PTC129798)

Tata Consulting Engineers Limited, India (CIN- U74210MH1999PLC123010)

SMEC (India) Pvt. Ltd. (CIN: U93000DL1997PTC088574)

I_f (13th Calendar Month) = General Index Number **118.2 (Jan'2021)** as per All India Average Consumer Price Index Number for Industrial Workers (Base 2016-100)

I_{f0} (1st Calendar Month) = General Index Number **330 (Jan'2020)** as per All India Average Consumer Price Index Number for Industrial Workers (Base 2001-100). Linking factor is **2.88** as per "Report on New Series of Consumer Price Index for Industrial Workers (CPI-IW) (Base 2016 = 100)".

Hence, $I_{f0} = (330/2.88) = 114.58$

Therefore, $I_f / I_{f0} = (118.2/114.58) = 1.03$

B) Foreign Currency

$$R_f = R_{f0} \times (I_f / I_{f0})$$

where:

R_f is the adjusted remuneration;

R_{f0} is the remuneration payable on the basis of the rates set forth in Appendix D for remuneration payable in foreign currency;

I_f is the official index for salaries in the country of the foreign currency for the first month for which the adjustment is supposed to have effect; and

I_{f0} is the official index for salaries in the country of the foreign currency for the month of the date of the contract

I_f (13th Calendar Month) = Official Index Number **140.2 (December'2020)** as per the Bureau for labour statistics US Department of Labour (December'2020 index is taken because the indices are released on quarterly basis. The next indices will be released in March 2021)

I_{f0} (1st Calendar Month) = Official Index Number **137.5 (December'2019)** as per the Bureau for labour statistics US Department of Labour (December'2019 index is taken because the indices are released on quarterly basis) (**Same data applicable as on signing of Contract on 09.01.2020**).

Hence, $I_f / I_{f0} = [140.2 / 137.5] = 1.02$

2. Adjustment of reimbursable expenses

$$P = P_0 \times (I/I_0)$$

where:

P is the adjusted reimbursable expenses;

P_0 is the reimbursable expenses payable on the basis of the rates set forth in Appendix E for reimbursable expenses;

I is the relevant official index in the country of the currency for the first month for which the adjustment is to have effect, and

I_0 is the relevant official index in the country of the currency for the month of the date of the contract

PMC Chennai Office Address:

Tata Consulting Engineers Limited, India (CIN- U74210MH1999PLC123010)

SMEC (India) Pvt. Ltd. (CIN: U93000DL1997PTC088574)

A) Local Currency

I = Relevant Official Index Number **118.2 (Jan'2021)** as per All India Average Consumer Price Index Number for Industrial Workers (Base 2016-100)

I_0 = Relevant Official Index Number **330 (Jan'2020)** as per All India Average Consumer Price Index Number for Industrial Workers (Base 2001-100). Linking factor is **2.88** as per "Report on New Series of Consumer Price Index for Industrial Workers (CPI-IW) (Base 2016 = 100)".

Hence, $I_0 = 330/2.88 = 114.58$

Therefore, $I_f / I_0 = 118.2/114.58 = 1.03$

B) Foreign Currency

I = Relevant Official Index Number **140.2 (December'2020)** as per the Bureau for labour statistics US Department of Labour (December'2020 index is taken because the indices are released on quarterly basis. The next indices will be released in March'2021)

I_0 = Relevant Official Index Number **137.5 (December'2019)** as per the Bureau for labour statistics US Department of Labour (December'2019 index is taken because the indices are released on quarterly basis) (**Same data applicable as on signing of Contract on 09.01.2020**).

Hence, $I / I_0 = [140.2 / 137.5] = 1.02$

We request you to kindly provide your approval for the price adjustment with effect from 01st February 2021, the 13th month, for above subject project.

Thanking you and assuring our services at all times.

Yours truly,

For Consortium of SMEC International Pty Ltd -TCE Ltd.-NJS Engineers India Ltd.-SMEC (India) Pvt. Ltd.

All-India Average Consumer Price Index Numbers for Industrial Workers

सत्यमेव जयते

**Report on
New Series of Consumer Price Index
for Industrial Workers (CPI-IW)
(Base 2016 = 100)**

(Since 1920)

**Government of India
Ministry of Labour & Employment
Labour Bureau**

The group level weights under new series (2016=100) and existing series of CPI-IW (2001=100) are depicted in above charts. It may be observed that the weight of Food & Beverages (earlier Food group) is declining whereas the weight of Miscellaneous group is rising under CPI-IW (2016=100) vis-à-vis CPI-IW (2001=100).

5.2. Linking Factor:

On the introduction of revised series, it is essential to provide a linking factor between the old series and the revised series so that the new series, when released, may be compared with the outgoing one. Under the 'Arithmetic Conversion method' the linking factor or conversion factor of the two series is worked out by taking the ratio of the averages of old series indices to the new series indices. This method had been adopted for linking 1982 series with 2001 series. Following this approach, the linking factor has been derived by taking the ratio of average of monthly indices of old series to new series for the period of 12 months (from September 2019 to August 2020). The linking factor of new series 2016=100 to old series of CPI-IW (2001=100) is 2.88. The linking factor of the centres common between both series ranges from 2.38 of Doom-Dooma Tinsukia to 3.60 of Nagpur (Annexure IX).
